**Let's Move!** is a comprehensive initiative, launched by the First Lady, dedicated to solving the problem of childhood obesity in a generation so that kids born today will grow up healthier and able to pursue their dreams.

### THE ISSUE

Over the past three decades, childhood obesity rates in America have tripled. Today, almost one in every three children in our nation is overweight or obese. If we don't solve this problem, one third of all children born in 2000 or later will suffer from diabetes at some point in their lives. Many others will face chronic obesity-related health problems like heart disease, high blood pressure, cancer and asthma.

### THE SOLUTION

Encourage kids to eat healthier and move more. When children combine physical activity with healthy eating in their daily routine, they help prevent a range of chronic diseases, including heart disease, cancer and stroke – the three leading causes of death. Along with decreasing obesity risk, physical activity helps to control weight, build lean muscle, reduce fat and promote strong bone, muscle and joint development. Physical activity has also been shown to improve academic performance including better grades, test scores, classroom behavior, attention, and concentration. And, of course, healthy eating gives kids the proper nutrition they need to stay energized, active, and maintain a healthy weight.

### LET'S GET MOVING

#### Get kids moving and make healthier choices for your children

- Children need 60 minutes of active and vigorous play each day
- Serve fruit or veggies with every meal (pick a vegetable they like and find different, tasty ways to prepare it)
- Substitute water or low-fat milk for sweetened beverages
- Substitute healthier ingredients such as whole wheat pasta, and lean meats in their favorite recipes

#### Earn a Presidential Active Lifestyle Award

When you and your kids commit to an activity five days a week for six weeks – like walking to school together, riding bicycles or taking the stairs instead of the elevator – you can each get an award from the President. To join visit [www.presidentschallenge.org](http://www.presidentschallenge.org).

### KIDZART: DISCOVER!

The "language" of art begins with the recognition of lines and shapes.

We show preschoolers how these lines and shapes can fit together to create a complete drawing. Then we introduce them to the tools to do it for themselves. Much of KidzArt: Discover! centers around teaching students to slow down, to focus, and to see — perhaps for the first time — how the world around them is put together. Students will create masterpieces using 2- and 3-dimensional media. This is not a parent participation class. Join anytime during a session (fee will be pro-rated). **Materials:** All materials are included. **Attire:** Wear old/play clothes. **Instructor:** KidzArt. **Location:** Ben Robertson Community Center.

### KIDZART: CONNECT!

Embark on a virtual journey to explore the visual arts. Students will be exposed to a variety of artistic styles and mediums. The elements of brainstorming and more complex forms of problem solving are introduced through an interactive format, and students will become more confident in their attempts at self expression. New projects are introduced every week! Join anytime during a session (fee will be pro-rated). **Materials:** All materials are included. **Attire:** Wear old/play clothes. **Instructor:** KidzArt. **Location:** Ben Robertson Community Center.
